

Vigilante Triage Solution

**59% of organizations have
unfilled cybersecurity positions
– let us be your security team.**

Dedicated intelligence analyst

For less than the cost of one full-time employee, Vigilante's Triage Solution provides you with a dedicated analyst, exceptional access, and targeted alerts. Your analyst will engage with you to identify your organization's special areas of concern and interest.

Full Vigilante portal access

Access our secure portal to receive content and alerts that your analyst has already fully prioritized, reviewed and managed. This includes dark web threat actor surveillance and open source media communication monitoring.

Personalized recommendations

Along with your alerts and content, your analyst will suggest recommended actions or protections for risks or threats that are targeting your organization.

Team up with Vigilante today.
